EN. Please read the information sheet before proceeding.

Please read all of the information carefully and refer back when you see the numbered icons throughout instructions.

Safety and Care

-  To retain the best quality finish, clean product regularly with a soft damp cloth.
-  Do not use abrasive or chemical cleaners, as these will damage the product.
-  Do not immerse in water or place directly under running water.

How it works

This product only works in the dark, when it detects movement it will turn on for 2 minutes after the last movement.

It is designed to conserve battery life and to be available when you need it most.

Tap the button once to change colours. Tap again to set the desired colour.

This product works best if the spherical sensor is facing the door. That way it can sense movement better.
